TGA Team Matches

Welcome to Texas League Play! This manual will guide you through use of the internet-based League play Module, where you will set up your home course, enter your team roster, submit your match lineups and post results. The software is easy to use and is linked directly to the GHIN handicap system so all handicap calculations are accurate and easy for the team captain or pro to use.

All team captains **must** submit rosters and results through the Module. Please do not hesitate to contact us if you have any questions regarding use of the Module.

(g)

The screenshot shows a three-column dashboard. The left column has a search bar with 'Lakewood vs Bent Tree (Thu, March 19)' and sections for 'EVENT ADMINISTRATION' and 'MANAGE HANDICAP INDEXES'. The middle column, 'PAIRINGS & SCORING', has 'Edit Match Play Pairings' highlighted with a red box. The right column, 'PROFILE & REPORTS', has various options like 'Round Profile' and 'Report Center'. At the bottom right, there are toggle switches for 'Show Pairings in Event Portal' (set to YES) and 'Show Results in Event Portal' (set to NO), along with a 'ROUND STATUS' section with buttons for 'Not Started', 'In Progress', and 'Completed'.

From there, your club should be highlighted in blue (h).

(h)

The screenshot shows a horizontal menu with several club names in rounded buttons: 'Odessa Country Club (Old)' (highlighted in blue), 'Mickey Jones', 'Mark Jones', 'Griffin Jones', and 'Kenneth Smith'.

The next screen you'll notice looks like a lineup page, because it serves both purposes. For adding players to the Master Roster, you'll only focus on the section on the right that say "Add New Players" (i)
