

As a reminder we are NOT utilizing the Low Handicap Index for Texas League Play. This season we will be utilizing players current handicap index with a 90% adjustment based on course tee's, rating, and slope. The 90% adjustment based on course tee's, rating, and slope will automatically be adjusted once tee's have been set for matches. Please review [2022 Texas League Play Policies & Procedures](#) for more information.

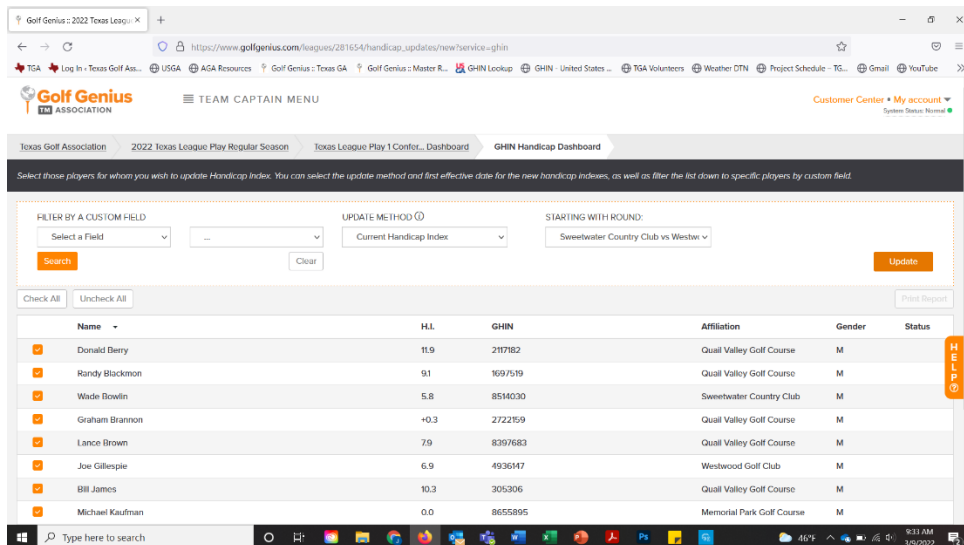

How to Update Current Handicap Indexes for Texas League Play Matches

Updating Current Handicap Indexes

1. Go to Team Captain Menu
2. Click on Access GHIN to Update Handicap Indexes

3. Make sure 'Current Handicap Indexes' and correct match is selected

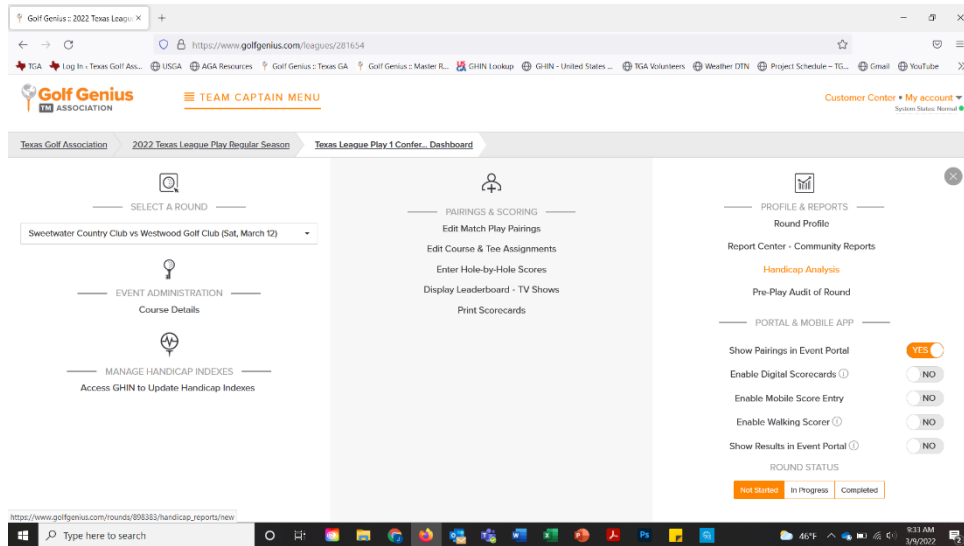

4. Click Update

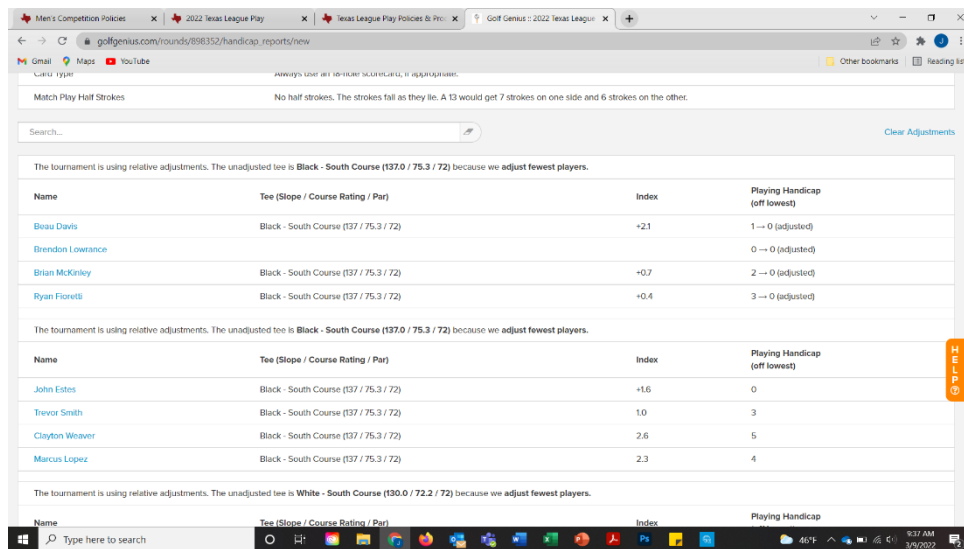

How to Update Match 1 'Scratch Match' Handicap Indexes to Zero for Texas League Play Matches
